Adam

FYI.

We had the meeting. The meeting went well.

Shell appears amenable to implementing our recommendations.

The only deviation to our recommendations is that qualified research PhDs will be conducting the study....rather than a licensed geologist or a PE. This is fine with me.

Vic

Victor--

Thank you for sending the attachment. Unfortunately I will not be able to attend the meeting today. However, I am very interested to hear how your conversation goes today and whether Shell appears amenable to implementing your recommendations or whether they are hesitant. I look forward to being in touch soon.

Adam

The meeting is at 1:00 PM to around 2:30 PM tomorrow.

We will be discussing the attached recommendations.

Yes, I don't see a problem with that. We are supposed to be coordinating with EPA.

It is the right number. I left him a message. Thanks.

Is it OK to cc a copy of Misty and my recommendations to EPA for his awareness?

Adam Freedman (415) 972-3845. The last digit looks like a five on the sign-in sheet, but it could be a different number. Let me know if this number doesn't work.

Give me the EPA guy's name and phone number. I want to discuss this meeting with him. Vic

Yes, the meeting is still on. Misty indicated to me that she would attend. I don't believe the EPA was going to attend this particular meeting.

Michael

Is the meeting still on?

Will Misty attend?

Will the US EPA attend?
